

## MANAGED PASSWORD

Empowering SME's to deliver a safe, password management solution to their business

### SECURITY AND COMPLIANCE:

#### Password Access Audits

Detailed user access reports

#### No more Finger Pointing

Know who accessed a Password and when

#### Improved Visibility

Centralise your company's passwords

### MANAGED PASSWORD AS A SERVICE:

- **Military-grade data encryption** - Data is held safely
- **One-click website logins** - Faster than hunt and peck
- **Password generation** - Don't risk simple password selection
- **Central Access Management** - Manage Employee system access
- **Terminate Systems Access** - Lock out former employees
- **Set & Forget** - No need to remember passwords
- **Reporting for Compliance** - Always know what's happened
- **Anytime, Anywhere Access** - Sync data across devices

### Customised APP and Browser plugin for easy Password Autofill

### Why is password management important?

- 81% of company data breaches are due to poor passwords
- 43% of all cyberattacks are aimed at small businesses
- 60% of small companies go out of business within 6 months of a cyberattack
- 89% of employees admit to retaining access to at least one application from a former employer
- 49% admit to logging onto and using their account from their former employer

All for R39.99 per user/month
